

## MANUSCRIPT SUBMISSION

- All articles should be typewritten using double-spacing throughout, including tables, references and footnotes. Submission of manuscripts should be made both electronically. The electronic version of the article should be e-mailed to the Managing Editor, *Journal of Infrastructure Development* at [infrastructure@idfresearch.org](mailto:infrastructure@idfresearch.org).
- Authors will be provided with a copyright form once the contribution is accepted for publication. The submission will be considered as final only after the filled-in and signed copyright form is received.

## BASIC FORMATTING OF THE MANUSCRIPTS

- Contributors must provide their affiliation, complete postal and e-mail addresses, and telephone numbers with their articles. If there are two or more authors, then the corresponding author's name and address details must be specified clearly.
- An abstract of not more than 180 words and 4–6 keywords should follow the title page.

## SPELLING AND NUMERICAL USAGES

- Use British spellings rather than American ('programme' not 'program'; 'labour' not 'labor' etc.). Where alternative forms exist, choose '-ise' spellings instead of 'ize'.
- Write numbers in figures (not words) for exact measurements, quantities and percentages. Use thousands, millions, billions and not crores and lakhs. In text, use 'per cent'; in tables '%'. In the case of decimals, use '0.8' rather than '.8'. Maintain consistency in the number of decimal places after the decimal point. Thus, use either '7.8' and '10.0' or '7.89' and '10.00' throughout the article. In more general description, numbers below 10 should be spelt out in words and above 10 in figures.

## QUOTATIONS, NOTES, TABLES AND FIGURES

- Single quotes should be used. Double quotes must be used within single quotation marks. Do not change the spellings of words in quotations. Quotations of 45 words or more should be indented from the text.
- Notes should be consecutively numbered and presented at the end of the article, not at the foot of the page. Notes should contain more than a mere reference.
- Tables should be typewritten, each on a separate page and numbered sequentially with Arabic numerals. Distinguish between figures (diagrams) and tables (statistical material) and number them in separate sequences. Tables and figures to be indicated by numbers separately (see Table 1), not by placement (see Table below). All Figures and Tables must be cited in the text. Caption and Source details for figures and tables should be mentioned irrespective of whether or not they require permissions. Figures and tables should be provided in editable format. All photographs and scanned images should have a resolution of minimum 300 dpi and 1500 pixels and their format should be TIFF or JPEG. Due permissions should be taken for copyright protected photographs/images.
